

Listing of the Claims

This listing of claims will replace all prior versions, and listing of claims in the application.

1. (Currently Amended) An electronic message configured to be communicated between a sender's device and a recipient's device, the electronic message comprising:

a sound file attached to the electronic message; and,

a predetermined identifier, associated with the sound file, that both distinguishes said sound file from other files attached to the message and indicates a course of action to be taken by the recipient's device with said sound file.

2. (Original) The method of Claim 1 wherein said sound file contains at least one word in a sender's voice.

3. (Original) The method of Claim 1 wherein said sound file contains at least one word in a computer simulated voice.

4. (Original) The method of Claim 1 wherein said sound file contains at least one word in a computer simulated voice and at least one word in a sender's voice.

5. (Original) The method of Claim 1 wherein the predetermined identifier is a specific file name associated with said sound file.

6. (Original) The method of Claim 1 wherein the predetermined identifier is an information tag.
7. (Currently Amended) The method of Claim 6 wherein the information tag is embedded in ~~the e-mail~~ a header of the electronic message.
8. (Currently Amended) A method for sending an electronic message ~~e-mail~~ from a sender's device to a recipient's device comprising:
 - attaching a sound file to an electronic message ~~e-mail~~; and,
 - associating utilizing a predetermined identifier with said sound file, which both
 - distinguishes said sound file from other files attached to the e-mail and which indicates a
 - course of action to be taken by said recipient's device with said sound file.
9. (Currently Amended) The method of Claim 8 wherein said attaching is performed by a ~~computer at a sending party's end~~ the sender's device.
10. (Original) The method of Claim 8 wherein said attaching is automatic.
11. (Currently Amended) The method of Claim 8 wherein said attaching is performed by an adjunct to a ~~computer at a sending party's end~~ the sender's device.
12. (Original) The method of Claim 8 wherein said attaching is performed by an e-mail server.

13. (Currently Amended) The method of Claim 8 wherein said attaching is performed by the
a recipient's ~~computer~~ device.

14. (Original) The method of Claim 8 wherein said sound file contains at least one word
in a sender's voice.

15. (Original) The method of Claim 14 wherein said sound file further contains at least
one word in a computer simulated voice.

16. (Original) The method of Claim 8 wherein said sound file contains at least one word
in a computer simulated voice.

17. (Original) The method of Claim 8 wherein the predetermined identifier is an
information tag.

18. (Currently Amended) The method of Claim 17 wherein the information tag is embedded
in ~~the e-mail~~ a header of the electronic message.

19. (Currently Amended) The method of Claim 18 wherein the information tag is embedded
by ~~a sender computer~~ the sender's device.

20. (Currently Amended) The method of Claim 18 wherein the information tag is embedded by an adjunct to ~~a computer at a sending party's end~~ the sender's device.
21. (Original) The method of Claim 18 wherein the information tag is embedded by an e-mail server.
22. (Currently Amended) The method of Claim 18 wherein the information tag is embedded by ~~a recipient computer~~ the recipient's device.
23. (Original) The method of Claim 18 where said attaching is selectively performed by a sending party.
24. (Previously Presented) A method for announcing electronic messages comprising:
receiving an electronic message with an attached sound file;
noting the presence of a predetermined identifier that distinguishes said sound file from other files attached to the message; and,
playing the attached sound file in response to the noting of the predetermined identifier.
25. (Original) The method of Claim 24 further comprising receiving at least one more electronic message with an attached sound file and playing said at least one more sound file.
26. (Original) The method of Claim 24 wherein said sound file contains at least one word in a sender's voice.

27. (Original) The method of Claim 24 wherein said sound file contains at least one word in a computer simulated voice.
28. (Original) The method of Claim 24 wherein said sound file contains at least one word in a computer simulated voice and at least one word in a sender's voice.
29. (Original) The method of Claim 24 wherein noting the presence of a predetermined identifier includes noting the presence of an information tag.
30. (Currently Amended) The method of Claim 29 wherein the information tag regarding the sound file is embedded in ~~the e-mail~~ a header of the electronic message.
31. (Original) The method of Claim 30 wherein the information tag is embedded by a sender computer.
32. (Original) The method of Claim 30 wherein the information tag is embedded by an adjunct to a computer at a sending party's end.
33. (Original) The method of Claim 30 wherein the information tag is embedded by an e-mail server.
34. (Original) The method of Claim 30 wherein the information tag is embedded by a recipient computer.

- 35. (Original) The method of Claim 24 where said playing is selective.
- 36. (Original) The method of Claim 24 where said playing is performed at a recipient computer.
- 37. (Original) The method of Claim 24 where said playing is performed at a recipient customer premise equipment.
- 38. (Original) The method of Claim 24 where said playing is performed at a recipient voice mail.
- 39. (Original) The method of Claim 24 further comprising converting the content of the electronic message to a voice message.
- 40. (Original) The method of Claim 39 where said converting is performed at an e-mail server.
- 41. (Original) The method of Claim 39 where said converting is performed at a recipient computer.
- 42. (Original) The method of Claim 39 where said converting is performed at an adjunct to a computer at the receiving party's end.

43. (Original) The method of Claim 39 where said converting is performed at a voice messaging system.

44. (Original) The method of Claim 39 wherein said converting is performed using a sound file as a voice sample.

45. (Original) The method of Claim 39 further comprising transferring said voice message to a voice-mail box.
